## TREASURE HUNT

On Jules Verne's tracks

Nantes intra muros

Dive in Jules Verne's Universe and discover Nantes' treasures !

The objective is to discover Jules Verne's hidden treasure, in the heart of the city. The teams are launched in a mysterious quest, full of enigmas and challenges, to reach their goal.

Following the start brief at the « cité des Congrès », the participants start their journey by searching for clues in specific areas of the city. Those will lead them to find an old map, showing the place where the treasure is supposed to be hidden.

Meanwhile, they discover the telltale spots of Nantes' history and culture (the final « trip » is to be chosen depending on departure and arrival areas) : The « Machines de l'île », the Cathedral, the « passage Pommeraye », the Graslin Square, and typical quarters like Bouffay for example

Throughout the course, dressed up comedians make the show come alive and make the teams dive into the quest : they provide clues and enigmas to further the game. They are met in historical places of Nantes, but also in especially rent flats, furnished on Jules Verne's theme (see next slide for photos). They may also be met in especially reserved old boats, part of the historical heritage of Nantes.

Once the course ended, the teams meet once again on the area where the treasure is supposed to be hidden. After finding the solution of the final enigma, they finish their quest ! The winners are then cheered as they should !

On Jules Verne's tracks Nantes intra muros

Activity from : 16.30 to 19.00

Référence : SETAC

Date : Sunday 22 may and Thursday 26 mai 2016

Number of people : 50 à 100
